Grant of patent right to Clancy Metals Process Company in respect of their invention for the treatment of Ores

---

From Messrs Remfry and Son, Calcutta. dt 30-1-11
Forwards an application from the Clancy Metals Procen Co. of New York for leave to file a specification of an invention for 'the treatment of ores bearing precious metals'.

To the Asst Comptr in Charge of the State Hnges Treasury No. G-4712 dt 14-2-11
Forwards Rs-10/- received with the above being the fee for leave to file the specification referred to therein.

To the Supdt of Stamps. No. G-4713 dt 14-2-11
Forwards Rs-2/- and requests that the enclosed Power of Attorney & the Deed of Assignment received with Rs-1 may each be impressed with a Rupee Govt. Genl Stamps of Re-1/- and the same returned to this Office.

G. R. S. 58

4.

4. To the State Geologist No. G.4714 & 14.2.1911
Forwards for report the application received with sl. 1

5. From the Asst Comptr in charge of the State Hygienic Lab No. 325 & 15.2.11. Acknowledgs receipt of Rs. 10/- remitted with sl. 2

6. From the Supt of Stamps No. 125 & 16.2.11
Returns the documents sent with sl. 3, duly stamped

7. To the Supt of Stamps. No. G.5013 & 2.3.11
Acknowledgs receipt of the enclosures forwarded with sl. 6.

8. From the State Geologist No. 1938 & 29.3.11
In compliance with sl. 4 forwards copy of letter No. 1938 & 29.3.11 from the chief Inspector of Mines recommending the grant of leave.

9. To the Carey Process Co., New York, No. G.5925 & 13 4/11
Authorises them to file a specification of the above invention.

10. To Messrs Remfry and Sons, Calcutta No. G.5926 & 13 4/11
Forwards the above Govt order for being Communicated to the applicants.

11. From the same Firm. Letter & 16.5.1911 filing 4 Copies of the Specification and remitting a sum of Rs 3 of

12. To the Compiler, Indian Gazette. No. G.7108 & 5.6.11
Notifies the filing of the Specification

13. To Messrs. Remfry and Son, Calcutta No G.7181 & 5.6.11
Forwards Copy of the above and returns sl. 9 with Certificate at foot duly filled and signed.

14. To the Supt Govt Museum, State Geologist & Chief Engineer No. G.7110-2 & 5.6.11. Forwards a Copy of the Specification for Record.

15. To the Dy Treasury Supt. Bangalore. No. G.7113 & 5.6.11.
Forwards Rs 30 of receives with sl. 11 above and requests ackt

A P P L I C A T I O N

(13)

TO THE DEWAN OF MYSORE:

The Application of CLANCY METALS PROCESS COMPANY, a corporation organized under the Laws of the State of New York, of No. 170 Broadway in the City of New York, County and State of New York, United States of America, engaged in the business of Treating Ores, for leave to file a Specification under Part I of the Mysore Inventions and Designs Regulations, 1894.

1. The Applicants are in possession of an Invention for "The Treatment of Ores Bearing Precious Metals;" they are the Assignees of the Inventor; and, to the best of their information and belief, the Invention is new within the meaning of Part I of the Mysore Inventions and Designs Regulations, 1894, and no circumstance exists which, if the applicants are authorized to file a Specification and file it in accordance with that Part, will disentitle them to an Exclusive Privilege thereunder in respect of the invention.

The Applicants have not applied for a patent in the United Kingdom in respect of this invention.

2. The following is a description of the Invention:--

While in former specifications for Letters Patent for the treatment of ores bearing precious metals, we have described the use of cyanogen bearing solutions containing an amide or amidine compound (cyanamide) - in conjunction with the electrolysis of the said solutions - we have also discovered that when an amidine compound (cyanamide) is added to a cyanogen bearing solution, such for example as alkaline ferro cyanide, ferri cyanide, soluble prussian or insoluble prussiates (in fact any of the prussiate family) that these mixtures are active solvents for the precious metals contained in ores which are amenable to straight cyanide treatment, without the use of electrolysis of the solutions.

Further, this process can be used on ores which have already been treated by the cyanide process, that is to say, on the residues commonly known as dumps. There exists in these dumps a large proportion of prussian blue, which when treated with alkali becomes in substance potassium ferro and ferri cyanide or soluble prussiates.

This opens up a cheap means of treating ores amenable to the ordinary cyanide process as well as ores - residues - which have already been treated by the cyanide solution; that is to say, ores in which the precious metals have not been wholly extracted, and would not pay for retreatment by the ordinary cyanide process on account of the cost of cyanide; but by our process extremely low grade ores may be advantageously treated by the use of cheap cyanamide of commerce in conjunction with cheap cyanogen bearing material.

The following is an example of using this process upon ore amenable to cyanide treatment:

2000 pounds of water containing one pound of calcium cyanamide, one pound of alkaline ferro cyanide, one pound of lime. The ore is subjected to this solution in the ordinary way, say in the proportion of two parts of solution to one part of ore, for a period of say eight to ten hours, or until extraction is complete.

The following is an example of using the process upon ore which has already been treated by the cyanide process and exposed to atmospheric oxygen which occasions the formation of prussian blue and other ferro cyanogen compounds.

This ore when treated with a solution containing one pound of cyanamide, one to five pounds of lime, in 2000 pounds of water, gives results equivalent to the use of straight cyanide solution when used in the proportion of two or three parts of solution to one part of ore.

HAVING NOW particularly described and ascertained the nature of our said invention, and in what manner the same is to be performed, we declare that what we claim is:--

1. The process of treating ore containing precious metals which consists in subjecting ore to the action of amide or amidine solution containing a cyanogen bearing compound.

2. The process of treating ore containing precious metals which consists in subjecting ore to the

action of a cyanamide solution containing a cyanogen bearing compound.

3. The process of treating ore containing precious metals which consists in subjecting ore to a cyanamide solution containing a ferro or ferri cyanide compound.

4. The process of treating ore containing precious metals which consists in subjecting ore which contains or is in association with soluble or insoluble prussiates to the action of a cyanamide solution.

Dated this xxxxxxx day of xxxxxxxxx

(16)

3. The applicants therefore apply for leave to file a Specification of the Invention pursuant to Part I of the Mysore Inventions and Designs Regulation, 1894.

Clancy Metals Process Co
By Ray D. Lillibridge
Prst.

We, the applicants above named, do declare that what is stated in the above application is true to our knowledge except as to matters stated on information and belief, and as to those matters we believe them to be true.

Dated this 16th day of December, 1910.

GOVERNMENT OF MYSORE

General Department.

No. R. 5925 / R.L 226-10-9 dt. 13.6.11

Register No. 3 **of 19**0-11

Bangalore, the 13th day of April 1911.

WHEREAS an application, dated the 16th Decr. 1910 and received on the 2nd Feb. 1911, has been submitted under Section 5 of the Mysore Inventions and Designs Regulation, 1894, by the Clancy Metals Process Co., a corporation organised under the Laws of the State of New York, ~~United States of America~~ No. 110, Broadway in the City of New York, County of State of New York, United States of America. (hereinafter referred to as "the applicant") for leave to file a specification of an invention for "The Treatment of Over Bearing Precious Metals".

And whereas the applicant has duly complied with all the requirements of Section 5 of the said Regulation;

The Government of Mysore are pleased, under Section 6 of the said Regulation, to authorize the applicant to file a specification of the said invention in accordance with the provisions of the said Regulation.

ORDERED, that the applicant be, and he is hereby, informed accordingly.

By Order of the Government of Mysore,

6/4/11

Secretary to the Govt. of Mysore,
Gen. and Rev. Depts.

VS.

Certified that the fees prescribed in the fourth schedule to the Mysore Inventions and Designs Regulation, 1894, in respect of the application for leave to file the said specification and of the filing thereof have been paid by the applicant, and that the specification hereinbefore described has been duly filed in accordance with the provisions of Section 8 of the said Regulation on this the 9th day of May 1911.

30/5/11

Secretary to the Govt. of Mysore,
Gen. and Rev. Depts.

(*Section 8 of the Inventions and Designs Regulation, 1894.*)

8. (1) If within six months from the date of an order under Section 6, Sub-Section (1), or within such further time, not exceeding three months, as the Government of Mysore, in its discretion, may, on cause shown to its satisfaction and on payment of the fee prescribed in that behalf in the fourth schedule, see fit to allow, the applicant causes a specification of his invention to be filed in manner by this Part required, and the fee prescribed in the fourth schedule in respect of the filing of the specification to be paid, the applicant shall, subject to the other provisions of this Part, be entitled to the exclusive privilege of making, selling and using the invention in the Territories of Mysore, and of authorizing others so to do, for a term of fourteen years from the date of the filing of the specification.

(2) But an exclusive privilege in respect of an invention of a new manufacture shall, notwithstanding anything in Sub-Section (1), cease, if the inventor fails to pay, within the time limited in that behalf by the fourth schedule, any fee prescribed in that schedule in respect of the continuance of the privilege.

(3) If, nevertheless, in any case, by accident, mistake, or inadvertence, an inventor fails to pay any such fee within the time so limited, he may apply to the Government of Mysore for an enlargement of the time for making the payment.

(4) Thereupon the Government of Mysore may enlarge the time accordingly, on payment of the fee prescribed in that behalf in the fourth schedule, and subject to the following conditions, namely :—

(*a*) the time for making a payment shall not in any case be enlarged for more than three months ; and

(*b*) if any suit is instituted in respect of an infringement of the exclusive privilege committed after a failure to make a payment within the time limited for the making thereof and before the enlargement of that time, the Court disposing of the suit may, if it thinks fit, refuse to award or give any damages in respect of the infringement.
